

# Why is MDT a World Leader in Change Management Software?

## Company – Inventors with Independence

- MDT invented Change Management software for the Programmable Device market over 20 years ago.
- MDT's flagship product, AutoSave, has been safeguarding plant automation assets for over 20 years.
- MDT's founding technologists remain on staff and continue to lead the Change Management market.
- MDT is the only established company in the market with their sole focus on Change Management.
- MDT is the only company in the market with a stable revenue stream based solely on Change Management.
- MDT has installations on six continents and is the corporate standard in many of the most advanced manufacturing facilities in the world.
- MDT manufactures Change Management's best-in-breed product, which provides world-class flexibility.
- MDT is not a competitor for automation devices vendors so technical data is shared freely.

## Software – The Industry's Most Advanced and Feature-Rich

- MDT develops software utilizing proven design methodologies.
- MDT rigorously tests its software in a state-of-the-art device lab prior to release.
- MDT designs software to be easy to use, easy to maintain, and easy to upgrade.
- AutoSave is responsive and adaptable enabling flexibility in our clients' operations.
- AutoSave is configurable software and does not require lengthy implementations.
- AutoSave has the largest and most diverse installed base in the industry.
- AutoSave communicates with the broadest range of control devices in the industry.
- AutoSave is the only product that provides approvals and audit trails in its standard offering.
- AutoSave has been operating in FDA Validated environments for over 10 years.
- AutoSave is developed with open standards in mind.
- AutoSave integrates with standard email systems providing system information and alerts.

## Services and Support – Maximizes Value

- MDT provides resources for turn-key projects or train-the-trainer engagements.
- AutoSave is quickly installed by a certified installer.
- MDT provides installation guidance, training, and support so that our customers can utilize and maintain their system independently.
- MDT's Support Center is fully managed by highly skilled, certified support engineers.
- MDT's Senior Engineers are available to assist with support calls.
- MDT understands the urgency in manufacturing ...we are available when our clients need us.
